

We got the image of garden

Since this is an easy challenge we may have to check for low hanging fruits which will get our flag.

```
→ I7Z3R0 strings garden.jpg | grep -i pico
Here is a flag "picoCTF{more_than_m33ts_the_3y3657BaB2C}"
→ I7Z3R0
```

Flag : picoCTF{more_than_m33ts_the_3y3657BaB2C}
